E X P E R I E N C E

Junior Web Developer

Digital Talent Scholarship

Completed Junior Web Developer training at Vocational School Graduate Academy under the Digital Talent Scholarship 2023, focusing on PHP web development, MySQL integration, and CRUD functionalities. The program culminated in a dynamic web application project.

AWS Back-End Academy

Amazon Web Services (AWS)

Completed training focused on Cloud Computing, Programming, and Back-End Development. Gained knowledge in AWS Cloud fundamentals, JavaScript programming, and Node.js for server-side applications and RESTful APIs. Developed skills in API integration and successfully built and deployed a back-end application project.

Back-End Developer Intern

Rumah Sakit Mitra Medika Premiere

Developed controllers to manage business logic and built RESTful APIs for seamless front-end and back-end communication. Ensured robust and secure API endpoints, optimized database structures, and implemented advanced features for complex queries. Collaborated with the team to maintain accurate system documentation.

Freelancer

Freelance Web Developer

Freelanced in website development, creating responsive and user-friendly sites tailored to client needs. Managed projects from concept to completion, focusing on functionality, design, and performance. Collaborated with clients to ensure satisfaction and delivered solutions that enhance user engagement.

C E R T I F I C A T E S

Junior Web Developer

Junior Web Developer is one of the Training Schemes based on the Indonesian National Work Competency Standards (SKKNI) with the Junior Web Developer scheme. Junior Web Developer trainees will be able to build and manage web-based applications with programming languages.
